Group Poster Presentation – Guidelines

1. Group Formation: Students have already been assigned to **groups of five members each**. The group allocations are provided in the annex attached to this document.

2. Presentation Format: Each group is required to prepare and deliver a **poster presentation** based on the assigned topic. The presentation must be supported by a well-organised and informative poster.

3. Individual Speaking Time: Each student must speak for 2–3 minutes as part of the group presentation. All group members must actively participate.

4. Content Distribution: Each group member must present a different aspect of the topic. No two members are permitted to present the same content or repeat the same ideas.

5. Preparation and Delivery: Students are expected to present their respective sections fluently and confidently **without reading directly from prepared notes or a written script.**

6. Content and Language: Students should present relevant ideas in a logical and coherent manner, using appropriate vocabulary, grammar and pronunciation.

7. Assessment Criteria: The presentation **will be assessed based on the prescribed evaluation criteria**. All assessment criteria, except one designated group assessment criterion, will be evaluated individually. The designated criterion will be assessed collectively based on the group's overall performance ***(Please refer to Table 01 below).***

Important: Each student is expected to demonstrate individual understanding, effective communication skills and a meaningful contribution to the overall group presentation.
